

Agile Personal Portable Electric Height Adjustable Desk

Electric control system: light, fast and stable

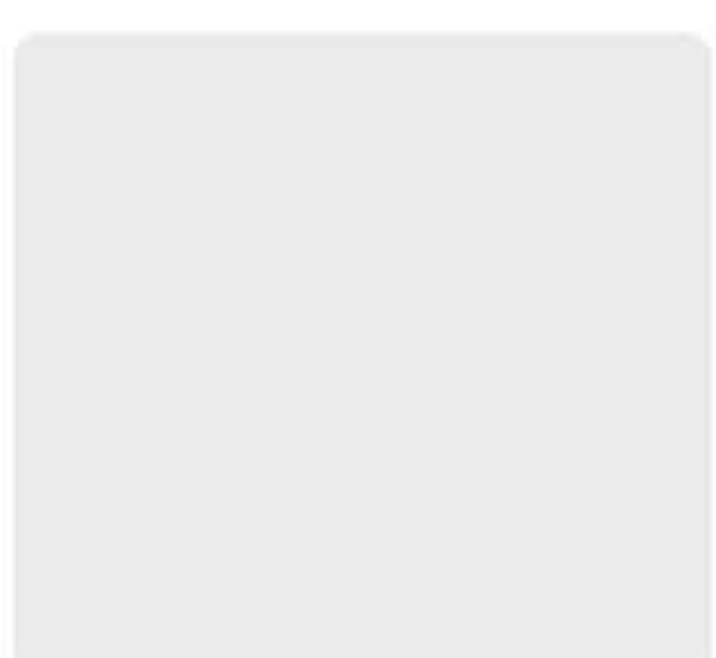

Agile Personal Portable Electric Height Adjustable Desk

is equipped with a new generation of motor control system, one-button operation, full mute, Centrino lifting, digital display height, intelligent memory, multiple protection Received multiple international certifications.

Steel Frame Color

White

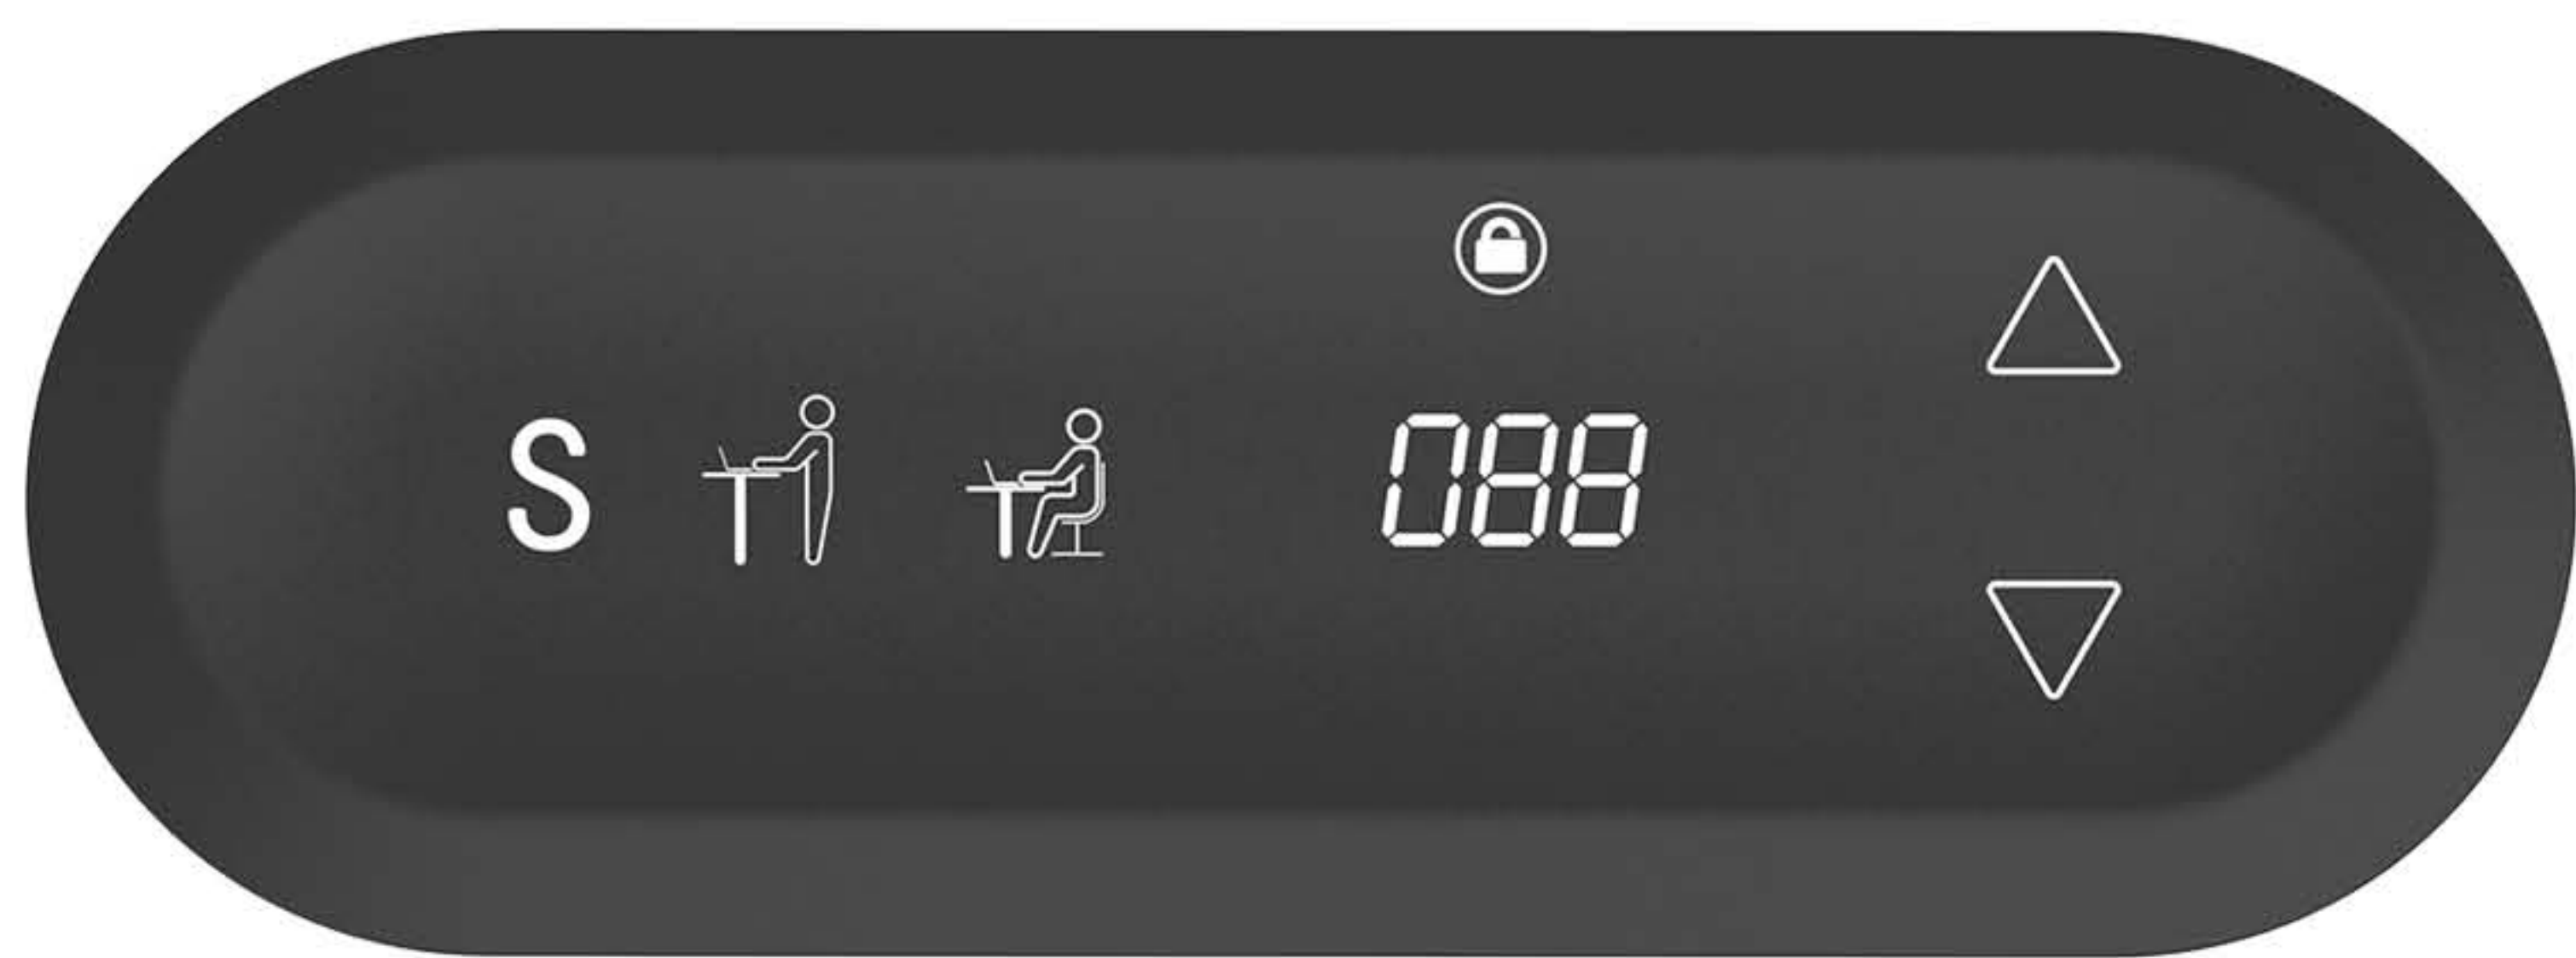

Embedded hand controller

One-button operation, full mute, Centrino lifting
digital display height, intelligent memory,
multiple protection, multiple
international certifications

Get rid of the shackles, smart sensing, mobile
phone light and charge, make the lifting
table smarter, technology
to change life.

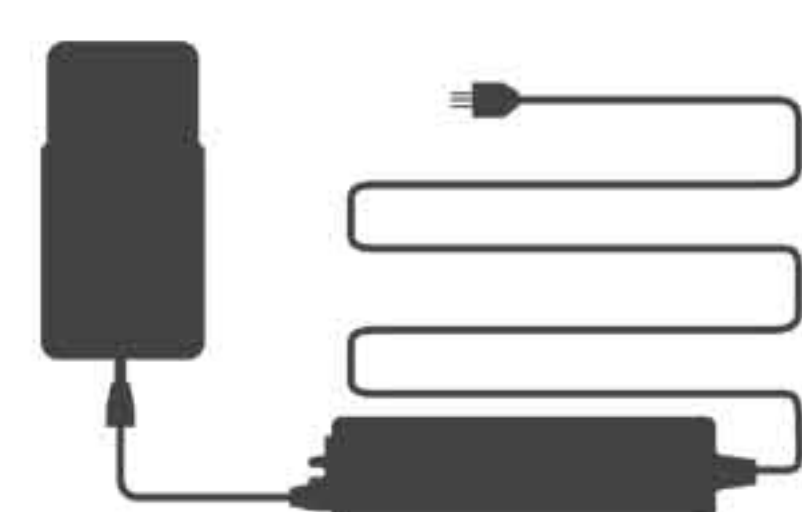

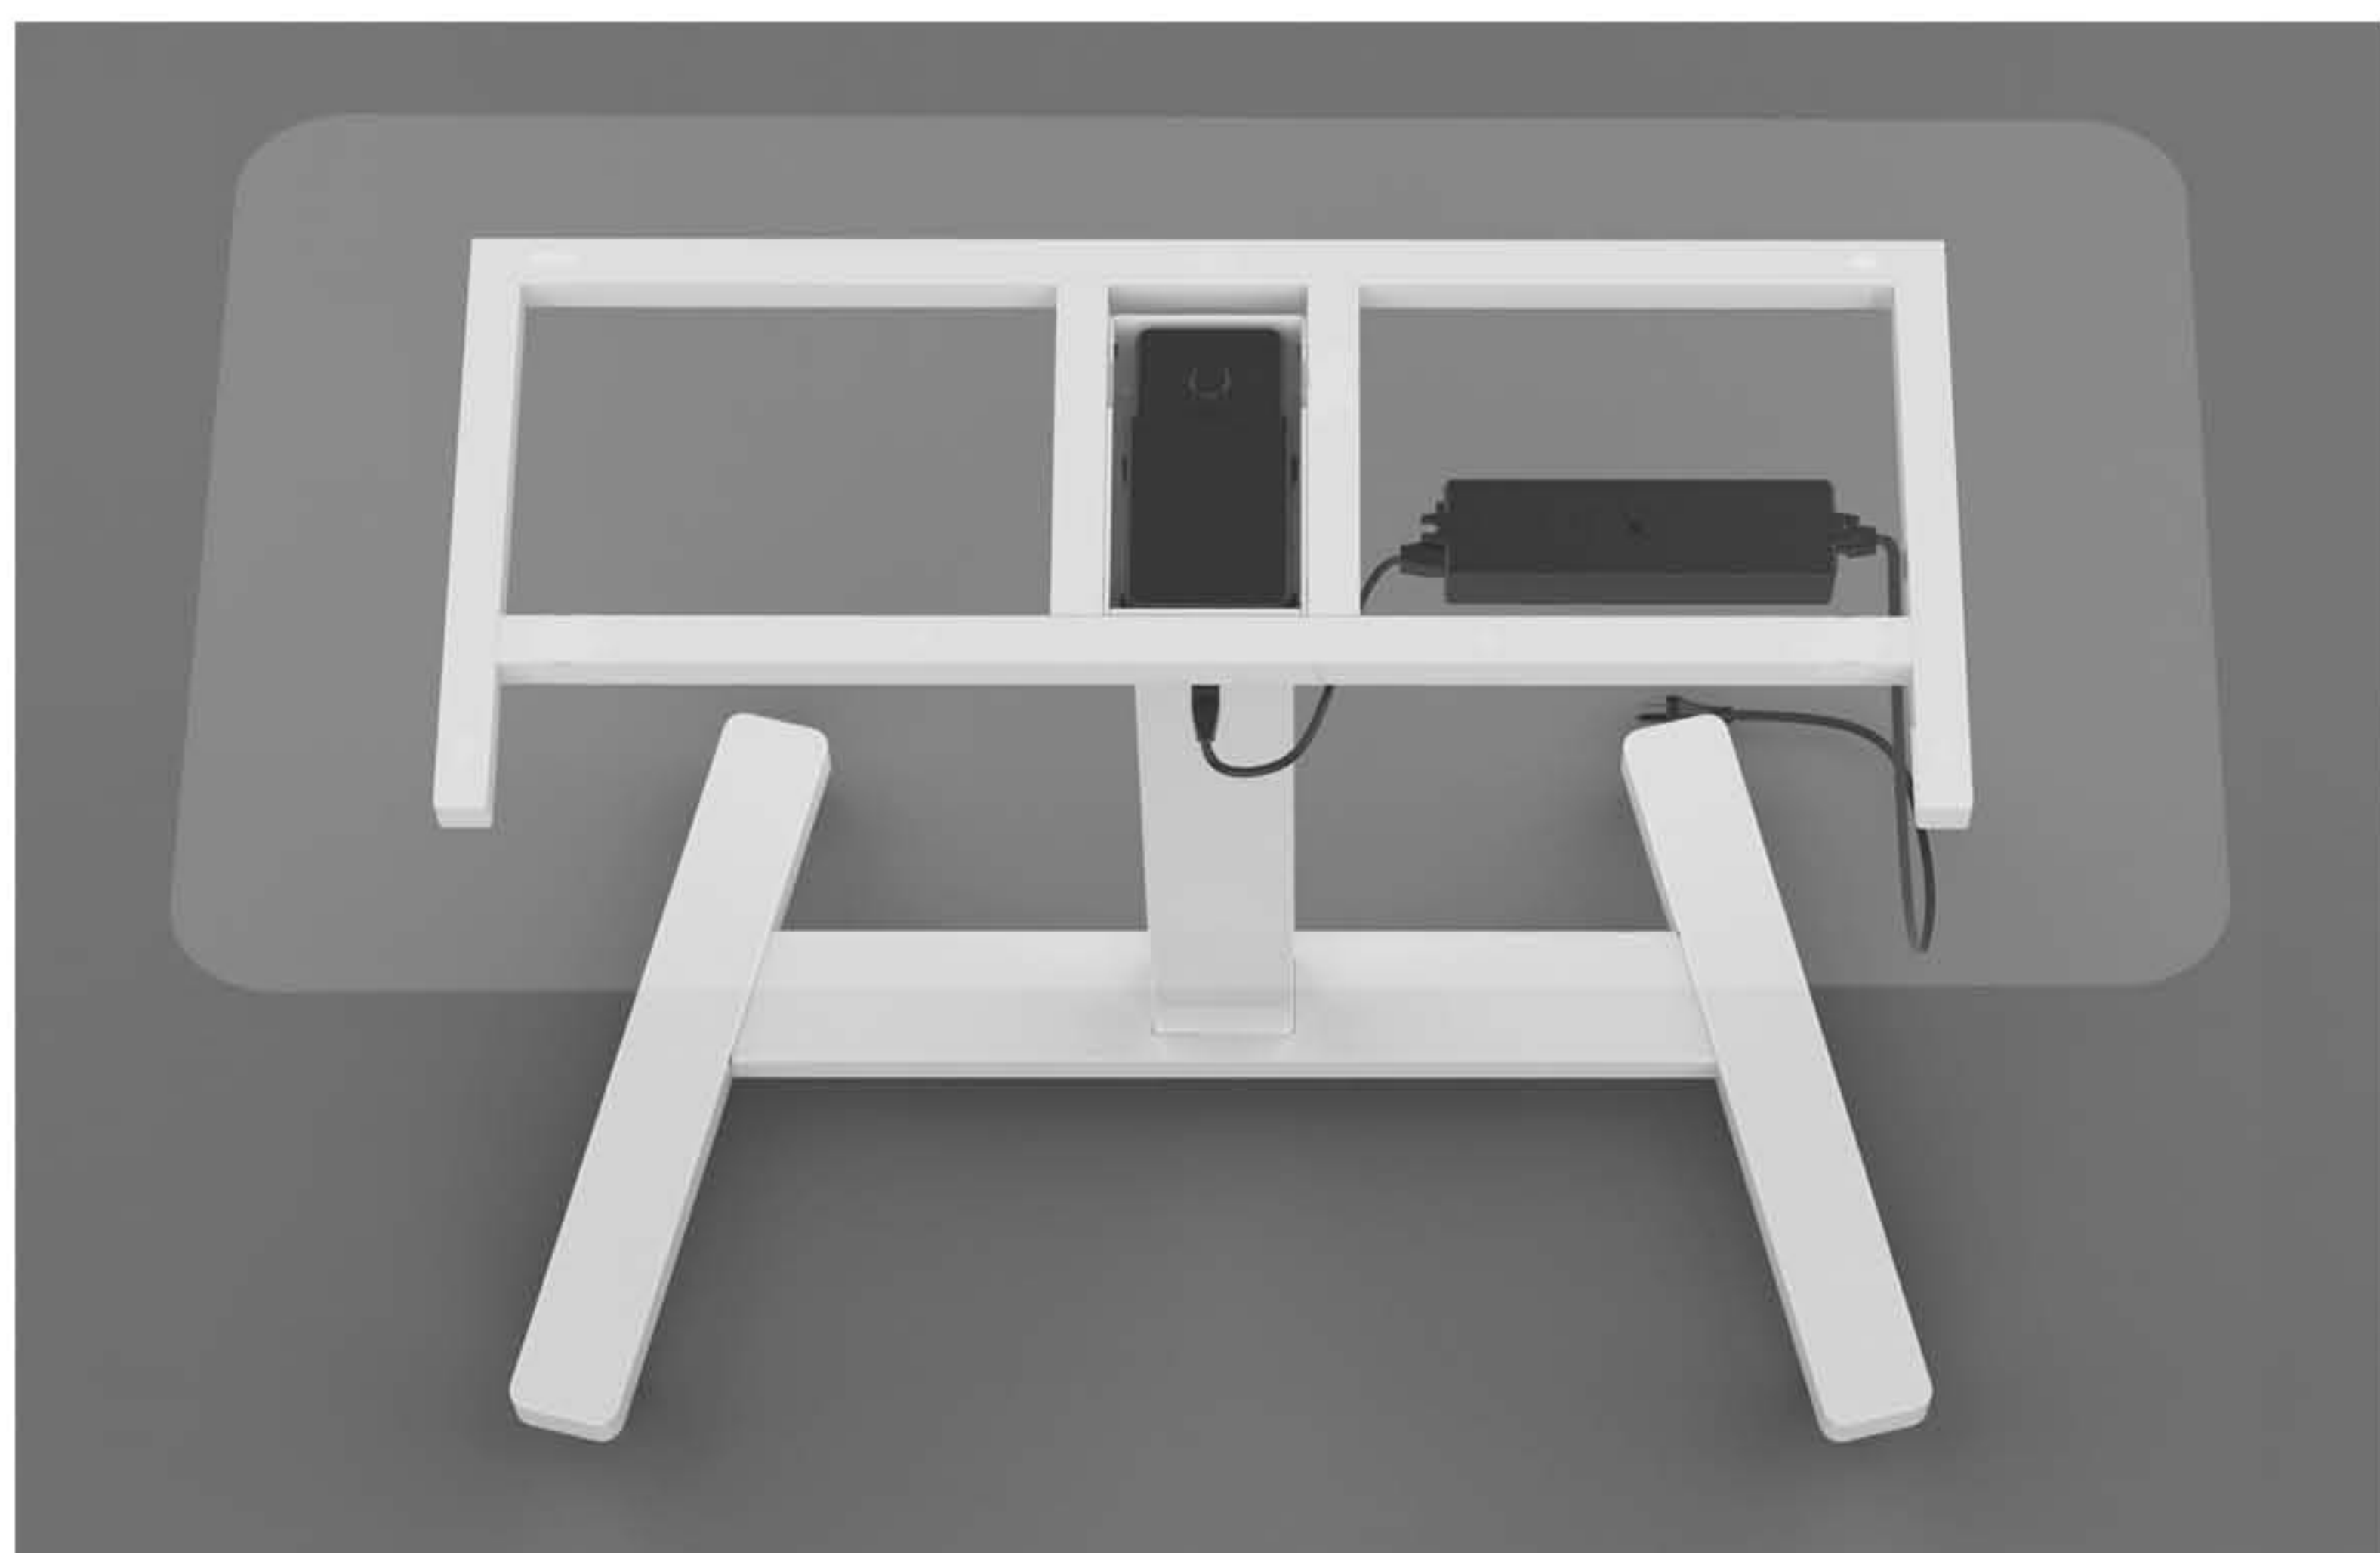

Desktop embedded intelligent hand controller, anti-missing unlock design greatly reduces the probability of accidental unlocking. The human concave design makes the finger fit the surface perfectly, one-button locking, free lifting, sitting station memory one-key switching.

Universal Wheel

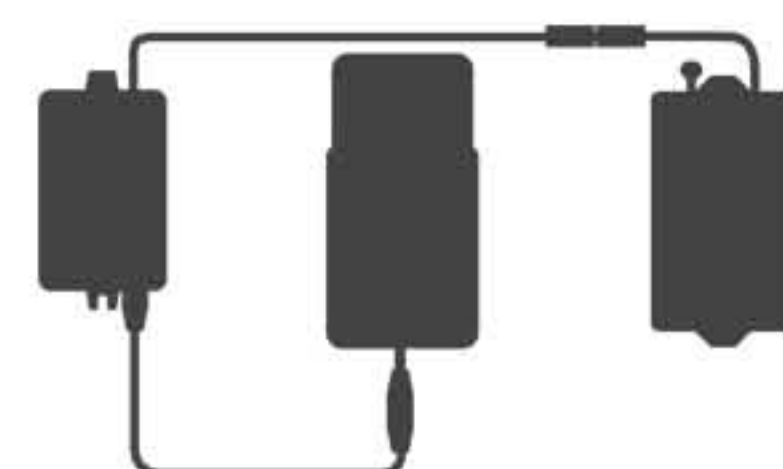

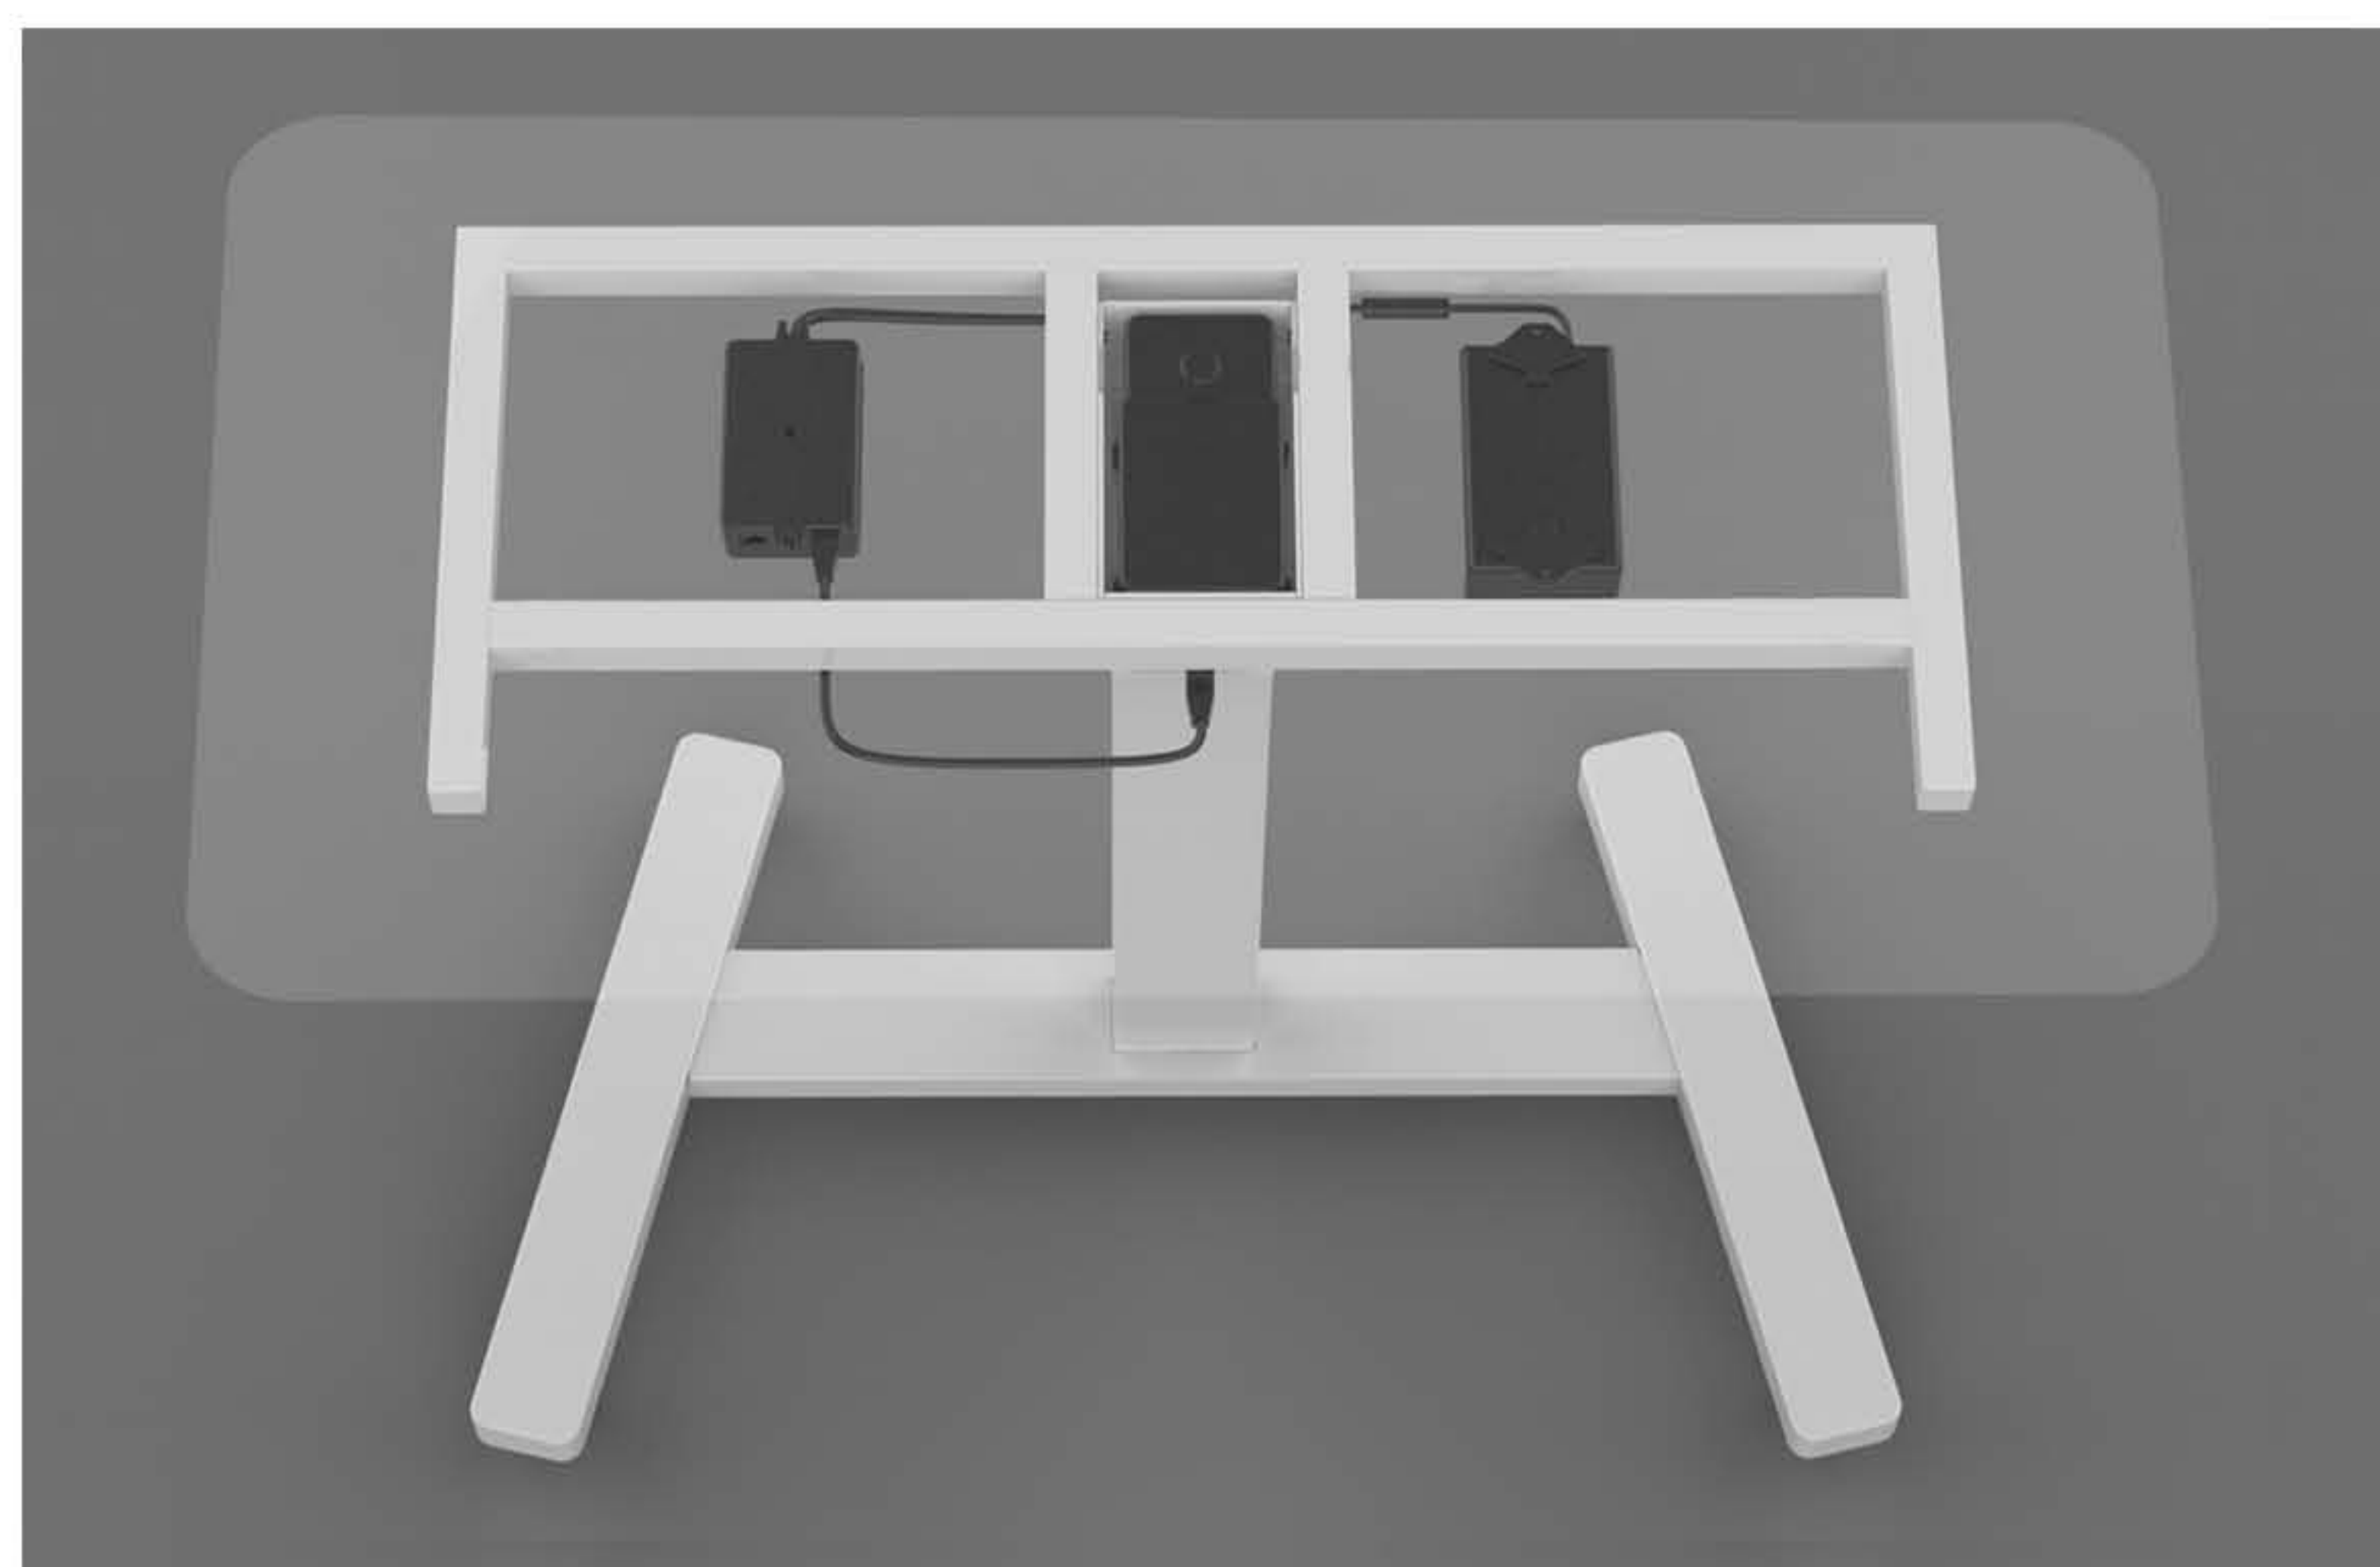

The universal wheel can be locked with brakes, mute does not hurt the ground, and the venue can be easily converted as desired.

CONTROLLER

The AC power supply system is smoothly lifted and the super load power is more powerful.

The new generation of controllers are equipped with lithium batteries to get rid of space constraints and increase space utilization, making mobile office more convenient.

Agile Personal Portable Electric Height Adjustable Desk

Voltage	110v~240v	Colour	White
Panel Size	1200x600mm	Decibel	<45dB
Height	750~1200mm	Load	120KG
Stroke	450mm	Weight	47.5KG
